Robert & Bianca Emery

Robert has a new book coming out soon, he also has some books for sale on Amazon if you are interested! They were written during Bible College and were a bit rough (He still needed emotional healing at the time!). They were published on Amazon. Since he has been healed and has matured in his faith, He has rewritten them accordingly. They have been written with love but also firm conviction!

On the 7th September we had the joy of being able to witness a baptism. It was treated with more seriousness than in the UK. Everybody takes part with leading the services and worship, preaching and singing special songs. But, the rule here is, you can't take part in communion or enter the pulpit if you haven't been baptised. You will need to put things right between you and others before taking communion, or you will be

restricted in your church activities. We all celebrated with this woman and had a little celebration afterwards with some food. It was a blessing to see this sister finally take the step forward. However, the enemy wasn't happy; there was a misunderstanding with another brother so the man who had the keys to the place forced us to leave before we could eat together. So we went to someone's house instead. It was great. Hopefully, the next baptism event will be at our new house with our swimming pool!

More exciting updates!

Robert has been teaching some of the brothers in the church about how to preach. This class went really well with an average of 9 in attendance. For the last class, rather than Robert going to the church as usual, we hosted them in Bianca's mother's house with a meal – something typically English! Pie and mash! Some of them also brought food and drink. We treated them all Earl Grey as well (brought from the UK!). This was great! Robert taught, we had some discussions and shared food together.

We also have another announcement. We have finally completely paid for our house – with the help of some of you and many other generous people. Though, the house is not suitable to live in at this moment due to the serious repairs that are needed, we at least have our own house! And little by little! I never imagined ever owning my own house. I must give thanks to God for this. Let this be a reminder to us all that doing life God's way is best.

Thanks to a benefactor, Bianca has been able to open a small store near where we live. She will be offering services to people living in Flores regarding help with some documents, printing, scanning, the selling of different decorations and gifts. Through this we are hoping to generate more income to be able to prosper and to use as much resources to build a family and to impact this nation with the word of God.

Please pray for our new house to be done up asap. For spiritual protection over our family. For Robert's books to be successful. For Bianca's business to be successful. For God to bring revival to people here. For the church to thrive.
